

2000 FISHERMAN

- THE LEGEND CONTINUES WITH THE REVAMPED 2000 FISHERMAN -

The 2000 Fisherman Little sister to the YaltaCraft 2200 fisherman this vessel has the soft ride and durability of her big sister, yet it can be legally towed by the average family car. The 2000 Fisherman (formally the Triple 5) is quite capable of offshore duties - camping overnight or just taking the family out exploring plus is still a good size for tubing and skiing.
